

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance. But I do use the long distance, and cell phone alot more than you think, I was overseas fighting for everyone who believes in Freedom, Ours and the ForeFathers who served first, lets make a stand and Let the FCC & others know where we came from, I respect, but a little concerned about our Big Corps. AT&T they are the Biggest Rip offs. OverSeas, and everywhere, and here in our US, they are doing the same thing, to the American public, taking us for a ride, can't we stopped what they are doing? I know we can, with all of our help, we are the proud and the strong!

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

Please! I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary

Sincerely,
